

Reporting Requirements Screen

- Guide to rest of the program
- Determines which of four forms user must fill out
- Also supplies information to very small quantity generators and non-generators

3

Disclaimer

Information shown on screens for this tutorial was taken from test data developed for the hazardous waste reporting program. Device, process, and other information from existing facilities were used for illustrative purposes only. Existing facility data was used to show typical usage of screens in the program. None of the information presented in the following screens should be viewed as accurate information.

Reporting Requirements Screen

The Reporting Requirements screen is the guide to hazardous waste reporting. Depending on the choices you make, the program will tell you which of four possible forms must be filled out. The program will also supply an exemption form to the user if the facility was a very small quantity generator or a non-generator and did not treat hazardous waste on site during the reporting period.

Answer the following questions to determine which forms to fill out

A. Generator Activity :

<input checked="" type="radio"/>	1.	Large Quantity Generator	The site generated in one or months during 2005 1,000 kg(2,205 lbs) or more of hazardous waste or the site accumulated at any time during 2005 more than 1 kg(2.2 lbs) of acute hazardous waste.
<input type="radio"/>	2.	Small Quantity Generator	In every single month during 2005, the site generated less than 1000 kg (2,205 lbs) of hazardous waste and the site accumulated at any time during 2005 6,000 kg(13,320 lbs) or less of hazardous waste.
<input type="radio"/>	3.	Very Small Quantity Generator	In every single month during 2005, the site generated less than 100 kg(220 lbs) of hazardous waste and the site accumulated at any time during 2005 1,000 kg(2,205 lbs) or less of hazardous waste.
<input type="radio"/>	4.	Non Generator	Site did not generate hazardous waste during 2005.

B. Treatment, Storage, Disposal Activity :

<input checked="" type="radio"/> Yes <input type="radio"/> No	The site treated, stored or disposed of hazardous wastes on site or received any hazardous waste from off site during 2005.
---	---

Note: Does not include the receiving of universal wastes or used oil for recycling .

Error on page. Local intranet

You should determine what type of generator you are in Section A of this form based on the definition of large quantity generator, small quantity generator, very small quantity generator, and non-generator. You also must determine whether the site treated, stored, or disposed of hazardous wastes on site.

For example, clicking the radio button for large quantity generator, yes on the treatment, storage, disposal activity directs the program, and clicking on the submit button, determines the following reporting requirements.
